Profile

An **end-to-end Senior Product Designer** with **more than 25 years of experience** working in design, **10 leading teams** and **7 creating innovative digital products in agile environments**.

I focus on creating **intuitive and visually appealing user experiences**, using solid usability and design principles, to deliver products that **create value for both users and business**.

With knowledge and experience in the areas of **UX research**, **Interaction Design**, **Usability**, **Accessibility**, **Interface Design**, **Behavioral economics** and **UX writing**.

I have a solid understanding of **DesignOps** processes, managing design teams, optimising workflows and facilitating cross-departmental collaboration to ensure the efficient and effective delivery of digital products.

In addition, I hold a **Scrum Master certification**, which allows me to integrate agile methodologies into the product development cycle, improving the team's adaptability and response time to market needs.

My ability to **lead complete design projects**, from **research** and **discovery** to **final delivery**, is supported by my ability to **manage and prioritise tasks** in collaborative and dynamic environments.

I am constantly looking for new opportunities to **innovate** and **improve products**, with a **user-centred and results-oriented approach**.

Strong communication skills and used to **working with development and business teams**: PMs, POs, FEs, BEs, stakeholders and other designers.

Knowledge and experience in the creation, maintenance and management of **Design systems**.

I am comfortable working in **agile environments**, with **short sprints** and **tight solutions**, where each team member is autonomous and focused on **results that deliver value**.

Work experience

Knowmad mood (ATSistemas) | Senior UX/UI Consultant — May 2021 - May 2025 — Remote

Digital product design and UX/UI consulting across multiple industries: Banking & Fintech (**Openbank**, **Andbank**, **Iberpay**), Automotive (**Volkswagen Group**), Media & Entertainment (**Atresmedia**), Healthcare (**Bienzobas**, **Institut Català d’Oncologia**, **Cione**), Education (**Sigma**, **Grupo Versus**), Aeronautics (**Marine Dynamics**), Energy (**Sercide**) and Real Estate (**Testa Home**).

Master in Corporate Communication	TRACOR, The Communication Arts Institute
1990	
Bachelor of Information Sciences: Advertising and Public Relations	Universidad Complutense de Madrid

User experience skills

- Problem detection and solution design using **Design Thinking** and **Design Sprint** methodologies.
- Ability to capture insights and validate ideas by generating **user personas**, **empathy maps**, or **user journeys**, which facilitate user-centered design.
- Ability to apply **heuristic analysis** and the **PURE Method** (Nielsen & Norman) to digital products to improve their usability.
- Knowledge and experience in techniques for implementing **information architecture** and optimal **navigation flows** (card sorting, tree testing, etc.).
- Knowledge and hands-on experience applying **WCAG 3.0 Accessibility Guidelines**, conducting digital **accessibility audits**, managing **accessibility handoff**, and creating and tracking **accessibility KPIs**.

User interface skills

- Designing **intuitive and visually compelling interfaces** for apps, websites, and digital products, aligned with user needs and business objectives.
- Creation, management, and maintenance of modular **design systems** that enable scalability and consistency in complex projects.
- Selecting **fonts and creating visual hierarchies** that improve readability and user experience.
- **Strategic use of color** to generate emotions and enhance the aesthetics of the interface.
- **Responsive design**, adaptable to different screen sizes and devices, ensuring a **consistent and fluid experience** on mobile, tablet, and desktop.
- **Interactive and functional prototyping** to validate ideas and obtain early feedback.
- **Designing UI kits** and maintaining reusable component libraries for visual and functional consistency across all products.
- **Creating animations, transitions, and microinteractions** that enhance the user experience.
- Design and use of **icons** that reinforce navigation and interface elements.
